

End-of-Life: Sales and Support of Metrosoft CM will be discontinued!

Each software product has a life cycle. It begins with the product release and ends when a product is no longer supported or replaced by another product.

Metrosoft CM has reached the end of product life cycle for various reasons and is now definitely replaced by Metrosoft QUARTIS.

- **End of Sale: 31. March 2016**

This is the latest possible date for an order of Metrosoft CM by a WENZEL subsidiary or sales representation. This applies to new licenses and updates.

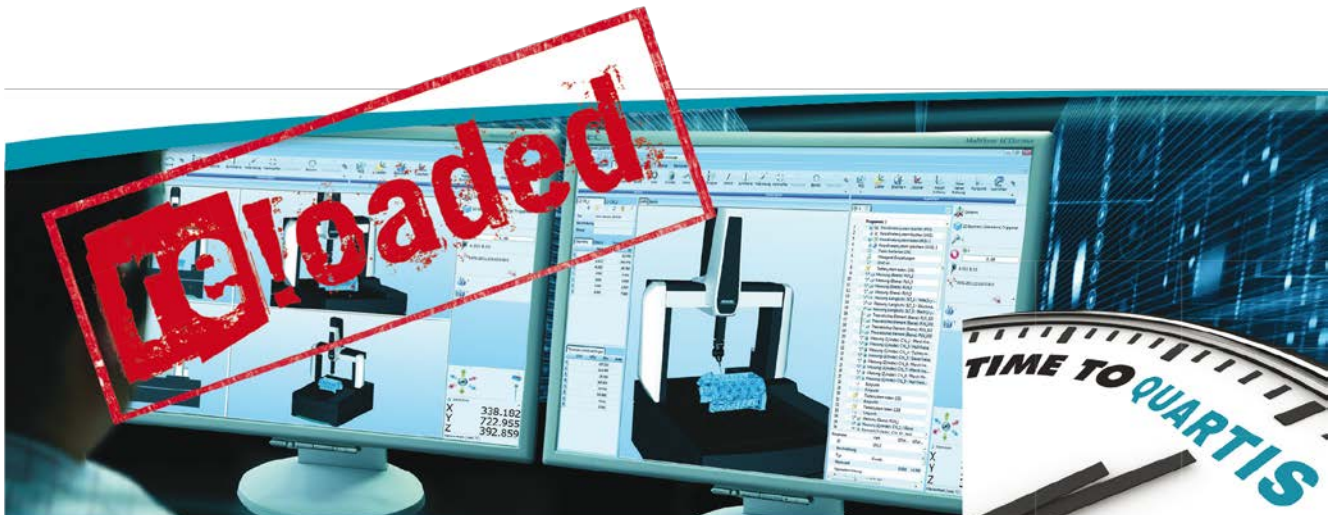

- **End of Support: 30. June 2017**

Limited support is granted up to the end of support. During this period, WENZEL Metromec will only solve critical customer problems.

No new features will be implemented and also no existing functionality extended or updated.

„TIME TO QUARTIS“ – take advantage of this one time offer

Migrate now from Metrosoft CM to Metrosoft QUARTIS and get faster and easier significant measuring results!

**Upgrade from Metrosoft CM to Metrosoft QUARTIS!
Faster and Easier to Significant Measuring Results!**

Promotion
